Reading order in two columns

The left column comes first.
It holds five short lines,
each one its own block,
and a reader takes all five
before it moves to the right.

The right column comes second.
A reader that runs across
the gutter mixes the two
columns line by line, which
this page is here to catch.

Accents et Umlaute

Évaluer la qualité, page après page.

Größe, Straße und Übersicht.

Año, niño y corazón.

Ça coûte très peu, dit-il.
